## How to Create a New Profile in Chrome and Edge Browsers

### Google Chrome

1. Open Chrome.
2. Click the profile icon in the top-right corner of the browser window (next to the three-dot menu).
3. Select "Add" or "Add another profile".
4. In the pop-up window, click "Continue without an account" (or sign in with a Google account if you want to sync data).
5. Enter a name for the new profile and choose a profile picture (optional).
6. Click "Done".
7. A new Chrome window will open with the new profile. You can now customize it with extensions, bookmarks, and settings.

### Microsoft Edge

8. Open Microsoft Edge.
9. Click the profile icon in the top-right corner of the browser window.
10. Click "Add profile".
11. In the pop-up, click "Add".
12. Choose "Sign in to sync data" or select "Continue without signing in".
13. If you skip signing in, you can still name the profile and customize it later.
14. A new Edge window will open with the new profile.
